

PRINCE SONI

+91-6265441667 ◇ Satna, MP

princesoni.cs21@gmail.com ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [Leetcode](#) ◇ [Portfolio](#)

OBJECTIVE

Full Stack Developer with 1+ years of experience in JavaScript, React, Node.js, and backend development. Skilled in building scalable, real-time, and AI-powered applications using LLMs and GenAI. Experienced in AI/LLM integration with LangChain, Vector Databases, and APIs.

EDUCATION

B.Tech in Computer Science, RGPV University Expected 2027
Relevant Coursework: React, JavaScript, Java, DSA, DBMS

Diploma in Computer Science, RGPV University 2021 – 2024

SKILLS

Technical Skills	Java, JavaScript, HTML5/CSS, C/C++, Python, SQL, PHP
Frameworks	React, Express, Django, LangChain
AI / GenAI	Generative AI, LLMs, LangChain, Pinecone
Databases	MongoDB, SQL, ChromaDB, Vector Databases
Cloud	AWS (EC2, S3)
Tools	Git, GitHub, VS Code, IntelliJ IDEA, Postman, Render
Soft Skills	Communication, Leadership, Problem Solving, Teamwork

EXPERIENCE

Web Developer Sep 2024 – Mar 2025
DocQ *Bangalore, Karnataka*

- Developed responsive web applications using React and JavaScript, improving development efficiency by 80%.
- Collaborated with cross-functional teams to optimize UI/UX, performance, and code quality.

Cloud Engineer Apr 2023 – Jun 2023
Rostris Infotech *Remote Internship*

- Assisted in deploying cloud applications and configuring FTP/DNS servers, gaining hands-on experience in cloud infrastructure and deployment.
- Worked with AWS EC2, S3, load balancing, and snapshots to support scalable and reliable cloud environments.

PROJECTS

Collaborative Code & Whiteboard. Built a full-stack real-time collaboration platform using React, Node.js, Express, MongoDB, WebSockets, and Monaco Editor with live code editing, whiteboarding, authentication, and multi-language execution. Optimized React rendering and APIs, reducing load time from 3.2s to 1.8s and improving Lighthouse performance from 68% to 91%.

StudySphere. Developed an AI-powered Face Recognition Attendance and LMS platform using React, Node.js, Express, MongoDB, and Python with automated attendance, authentication, and course management. Optimized APIs and frontend rendering, reducing load time from 3.0s to 1.7s and improving performance from 70% to 92%. [\(Live\)](#) [\(GitHub\)](#)

RAG Application. Built a Retrieval-Augmented Generation application using LangChain, Pinecone, Generative AI, and vector embeddings for semantic search and context-aware document Q&A. Optimized API and retrieval workflows, reducing load time from 3.1s to 1.9s and improving performance from 67% to 90%. [\(Live\)](#) [\(GitHub\)](#)

EXTRA-CURRICULAR ACTIVITIES

- **Google Student Ambassador.** Selected among 500 student ambassadors in Madhya Pradesh to represent Google and built a community of 150+ students through workshops and mentorship.
- **Coding Competition.** Secured **1st Place** in a college-level coding competition, demonstrating strong problem-solving and algorithmic skills.
